

# I'll Never Love

[Michael Kiwanuka](#)

I'll never love somebody  
I'll never love somebody  
Leave me cold  
Trouble song in the moonlight  
Will be my bride I'll never need somebody  
I'll never need somebody  
Leave me alone  
A worried mind in the violence  
Will be my guide I'll never hold somebody  
I'll never hold somebody  
For very long  
I make love but only for a night  
And I'll be gone  
I'll never love somebody  
I'll never love somebody  
Leave me cold  
The trouble song in the moonlight  
Will be my bride  
Will be my bride  
Will be my bride
