

Wrong

Luh Kel

Nah Nah Nah Nah Huh Uh Nah Yeah Nah Nah ahh
Girl my mood changed when you walk
through the door

Before you came there were tears on the floor
Girl you so perfect i think that its workin
You gave me your love now i really want more
Girl you so different, apart from the rest
Cool i dropped out, I don't really take tests
You gave me your love now i'm addicted like drugs
Girl i think you the plug, You the one with the best
You did me wrong
You did me wrong
You did me wrong
Girl you did me wrong
You did me wrong
You did me wro-o-o-ong

All by my side
Argue less talk i need you by my side
You had my back when the gang used to slide
Now you gone tell me you done with my time
I thought that i needed you in my life
All of them times that you talked what you liked
Girl you was down and you told me you rolled like my rollie
Im done cause you lied with my guys like nah
The only plan was to ball
Remember them times when we fall, but we got up and fought
I tried to leave you and stall
Baby I gave you my all, my all, my all
No calling, road in the back seat, yeah you used to ride like a taxi
Yeah my heart feel so deep in the black seat,
My heart feel so deep in the black seat
Girl
my mood changed when you walked through the door
Before you came there were tears on the floor
Girl you so perfect I think that its workin'
You gave me your love now I really want more
Girl you so different apart from the rest
Cool I dropped out, I don't really take test
You gave me your love, I'm addicted like drugs
Girl I think you the plug, you the one with the best
You did me wrong, You did me wrong
You did me wrong, You did me wrong
Girl you did me wrong, You did me wrong
You did me wro-o-o-o-n-g
