

Secrets (feat. Conrad Sewell) [Kaskade Remix]

CID

They don't know what they can't see
They can't hold what they can't keep
 Me from you, you from me
The more we have, the more I need
 I don't know and I don't care
 Trouble goes and I'll be there
 If it's you, then it's me
The more we have, the more I need
 I won't fall from this love
 I won't break when it's tough
I will keep all my promises to you
 I won't stop 'til we're dead
 But I solemnly swear
I will keep all my promises to you
So I will carry all our secrets for you
 I will carry all our secrets for you
 I will carry all our secrets for you
 I will carry all our secrets for you
They don't know what they can't see
They can't hold what they can't keep
 Me from you, you from me
The more we have, the more I need
 I don't know and I don't care
 Trouble goes and I'll be there
 If it's you, then it's me
The more we have, the more I need
 I won't fall from this love
 I won't break when it's tough
I will keep all my promises to you
 I won't stop 'til we're dead
 But I solemnly swear
I will keep all my promises to you
So I will carry all our secrets for you
 I will carry all our secrets for you
 I will carry all our secrets for you
 I will carry all our secrets for you
 I will carry all our, carry all our
 I will carry all our secrets for you
So I will carry all our secrets for you
 I will carry all our secrets for you
 I will carry all our secrets for you
 I will carry all our secrets for you
