XIA (Junsu) - How Can I Love You English Translation

How can I love you
Do you know?
Can you tell me?
So my heart can fill in with your heart
Can you open the way?
How can I stand with you

It has already started
I can't stop
When I open my eyes, I can only see you
You became my everything
Oh Love
Everyday I'll give you
all of my love
This is my first love
How can I express it?
Everyday I'll give you
all of my heart
Words I prepared for you
I can say them with confidence
Even though you've stopped in fear
I love you
How can I stand with you
Close your eyes
I am next to you
Will you take a step to me
So I can touch your cheeks?
Oh Love
Everyday I'll give you
all of my love
This is my first love
How can I express it?
Everyday I'll give you
all of my heart
Words I prepared for you
I can say them with confidence
Even though you've stopped in fear
I love you
Everyday I'll give you
all of my love
This is my first love
How can I express it?
Everyday I'll give you
all of my heart
Words I prepared for you
I can say them with confidence
Even though you've stopped in fear
I love you
