

# Feels Like Christmas (feat. Jana Kramer)

## Straight No Chaser

When I'm with you it feels like Christmas  
I must have been good  
Cuz baby you're just what I wanted Ain't cold enough to snow outside  
The neighbors haven't even hung up lights  
Nobody's baking cookies or making a list,  
Buying toys, or wrapping gifts It's still early November  
but it might as well be December  
Cuz when I'm with you it feels like Christmas  
I must have been good  
Cuz baby you're just what I, I wanted  
And now that I've got you  
The nights don't feel so cold  
Yea you're there for me to hold on to  
I don't mind sleeping cuz I know when I wake up  
It'll feel like, it'll feel like Christmas  
Let's light a fire and heat things up  
Let me pour some cocoa in your cup  
Go ahead and hang that mistletoe  
Cuz either way we're going to get real close It's still early November  
But it might as well be December  
Cuz when I'm with you it feels like Christmas  
I must have been good  
Cuz baby you're just what I, I wanted  
And now that I've got you  
The nights don't feel so cold  
Yea you're there for me to hold on to  
I don't mind sleeping cuz I know when I wake up  
It'll feel like...  
Cuz when I'm with you it feels like Christmas  
I must have been good  
Cuz baby you're all I want  
And now that I've got you  
The nights don't feel so cold  
Yea you're there for me to hold on to It's still early November  
But it might as well be December  
Cuz when I'm with you it feels like Christmas  
I must have been good  
Cuz baby you're just what I, I wanted  
And now that I've got you  
The night don't feel so cold  
Yea you're there for me to hold on to And I don't mind sleeping  
Cuz I know when I wake up You'll be right beside me

I'm never going to let you go Even if I wake up from the best dream ever  
It'll feel like, it'll feel like Christmas It'll feel like Christmas.. It'll feel like Christmas..
