

My Friends, My Friends

Eddie Money

Talkin' 'bout my T-Shirts
And how they used to fit me
When I am laughin' with the boys
Their spirts seem to lift me
We were talkin' 'bout '68 & '69
And all the things we did
It's not that we're all that old
...then... we were just kids. My Friends, My Friends
Never got together again but
I love my friends
My Friends
My Memories are happy
And my memories are sad
But I love to take my pictures out
And take the things I had
My songs are not like my life now
And its always true
Me and my friends were dreamers
Dreamin' all we do
My Friends, My Friends
Never got together again but
I love my friends
My Friends
My Friends, My Friends
Never got together again but
I love my friends
My Friends My Friends, My Friends
Never got together again but
I really do miss my friends
