

# The Tide

Niall Horan

[Verse 1]

Oh no, get ready  
I feel it coming, it's coming again  
I stay close, hold steady  
'Cause I don't want it, don't want it to end  
Those brown eyes, crying in a crowded bar  
Every time we get this close  
It's always pulling us apart[Chorus]  
Don't let the tide come and wash us away  
Don't let the tide come and take me  
I just want a safe place to hide us away  
So don't let the tide come and take me  
Don't let the tide come and wash us away  
Don't let the tide come and take me  
Far from with you, where I wanna stay  
So don't let the tide come and take me

[Verse 2]

Oh no, get ready  
I feel it coming, it's coming again  
Don't give up, and don't let me  
'Cause I'm needing you to understand  
When I go, all I ever seem to fear  
Is that you're gonna find someone  
And slowly watch me disappear[Chorus]  
Don't let the tide come and wash us away  
Don't let the tide come and take me  
I just want a safe place to hide us away  
So don't let the tide come and take me  
Don't let the tide come and wash us away  
Don't let the tide come and take me  
Far from with you, where I wanna stay  
So don't let the tide come and take me

[Bridge]

Oh no, get ready  
Yeah, I feel it coming, it's coming again  
Stay close and hold steady  
'Cause I don't want it, don't want it to end  
No, no, I don't want it, don't want it to end[Chorus]  
Don't let the tide come and wash us away  
Don't let the tide come and take me  
I just want a safe place to hide us away  
So don't let the tide come and take me

Don't let the tide come and wash us away  
Don't let the tide come and take me  
Far from with you, where I wanna stay  
So don't let the tide come and take me
