

# Island Time

Dan + Shay

[Verse 1]

Is it just me or did the world stop spinning?  
I swear I felt it slowing down for a minute  
I know it sounds crazy  
But looking at you, baby  
With your summer hair that's falling down in slow motion  
Your body's swaying like the waves in the ocean  
I know, that you're thinking, exactly what I'm thinking[Pre-Chorus]  
If I could go anywhere  
I wouldn't go anywhere  
I'm already there

[Chorus]

Girl, we ain't gotta leave this room  
To make it feel like a honeymoon  
Don't need copper-tone on your skin  
When my hands can still pretend  
Girl, we don't need a white sand beach  
When your lips get to kissing on me  
It already feels like paradise  
We'll take it nice and slow tonight  
Loving on island time[Verse 2]  
Ain't gotta worry about a beach bar closing  
I gotta bottle of tequila we can open right here  
I'm just saying, it's we're on vacation

[Chorus]

Girl, we ain't gotta leave this room  
To make it feel like a honeymoon  
Don't need copper-tone on your skin  
When my hands can still pretend  
Girl, we don't need a white sand beach  
When your lips get to kissing on me  
It already feels like paradise  
We'll take it nice and slow tonight  
Loving on island time  
Loving on island time, yeah[Pre-Chorus]

If I could go anywhere

I wouldn't go anywhere

I'm already there[Outro]

Girl, we ain't gotta leave this room  
To make it feel like a honeymoon  
Don't need copper-tone on your skin  
When my hands can still pretend

Girl, we don't need a white sand beach  
When your lips get to kissing on me  
It already feels like paradise  
We'll take it nice and slow tonight  
Loving on island time  
Loving on island time
